PROJECTS WORKED ON

DiningRD

As a skilled Frontend Engineer specializing in React JS, I bring proficiency in leveraging MUI, Redux Toolkit, React Query, and React DnD to elevate the user experience of DiningRD Manager. My commitment lies in crafting seamless code to optimize the application's performance and functionality.

Taleem

Elevating user interfaces is my craft as a Frontend Engineer, where I've skilfully utilised Next JS and Tailwind CSS to enhance the Taleem Project. Specialising in the intricate dance of code, I've contributed to refining the School Management System for a seamless educational experience.

Khabar Nama

Navigating the realm of innovation, I've sculpted the Khabar Nama Mobile App as a React Native Developer, meticulously crafting its code structure to industry standards. My touch ensures a seamless journey through the application, blending creativity with precision.

News Fetcher

Built a News Fetcher App with React.js frontend and Node.js backend, fetching updates from an open-source API. Adhering to industry coding standards, ensuring concise and efficient code.

Exerciser

Crafted a fitness app with a React.js frontend and a Node.js backend, dedicated to personal exercise tracking. Seamlessly blending creativity and industry coding standards for an intuitive self-monitoring experience.
